

Project Aim

The main goal of REVIVE project is to ensure the quality of VET curriculum and services by reviewing and reviving existing VET curriculum on the basis of innovative education and technological methodology.

Project Objectives

- * to select VET curriculum which does not meet quality criteria and is not functioning properly
- * to harmonize education and technological methodologies for curriculum redevelopment
- * to re-develop VET curriculum for distance learning
- * to update, improve and revive curriculum and to test its applicability
- * to present successful cases and highlight methodological input by spreading curriculum cases Europe wide, emphasizing quality influencing factors and quality criteria listed in an online success story publication
